### Various access

Be-Tech G536FK has two access solutions, Fingerprint or PIN code for your convenience.

### One-touch Fingerprint Verification

One-touch Fingerprint verification technology has been applied to conveniently read a fingerprint in one shot.

### Fake PIN code

You can make an instant PIN code for security.

### Operation status notification

Whenever any operation is made, the LED indicator informs you what is happened through different colors and signs.

### Automatic locking

Door lock will be locked automatically after opening door a few seconds. (Manual operation is also available)

### Anti-panic exit system

For convenience and in case of emergency, it allows you to open the door by simply turning its handle from inside.

### Alarm (Incorrect Fingerprint or PIN code attempt)

Alarm will be on and last for 60 seconds if anyone attempts to open the lock with incorrect Fingerprint or PIN code for 3 times.

### Low battery warning signal

A continuous "beep" sound during door access will alert you to replace batteries.

### Mechanical key override

For emergency, it can also be unlocked with a mechanical key.
