Unlock your life with smart solution
Leave your home security to Be-Tech

Various access

Be-Tech i8A1FMT has three access solutions, Fingerprint, RF Card key or PIN code for your convenience.

One-touch Fingerprint Verification

One-touch Fingerprint verification technology has been applied to conveniently read a fingerprint in one shot.

Operation status notification

Whenever any operation is made, the LED indicator informs you what is happening through different colors and signs.

Scramble code

You can enter random numbers prior to the right code when there is a chance of exposing it to others.

Automatic locking

Door lock will be locked automatically after opening door a few seconds. (Manual operation is also available)

Missing key invalidation

Once you lose your key, it has no validation as long as you re-register rest of your keys.

Anti-panic exit system

For convenience and in case of emergency, it allows you to open the door by simply turning its handle from inside.

Alarm (Incorrect Fingerprint, RF Card or PIN code)

Alarm will be on and last for 60 seconds if anyone attempts to open the lock with incorrect Fingerprint, RF Card or PIN code for 5 times.

Low battery warning signal

A continuous "beep" sound during door access will alert you to replace batteries.

Invisible keypad

Keypad number can be seen only when you touch the screen with your palm.

Mechanical key override

For emergency, it can also be unlocked with a mechanical key.

Convenient
