Unlock your life with smart solution
Leave your home security to Be-Tech

Various access

Be-Tech R362FM has two access solutions, Fingerprint and RF Card key for your convenience.

One-touch Fingerprint Verification

One-touch Fingerprint verification technology has been applied to conveniently read a fingerprint in one shot.

Operation status notification

Whenever any operation is made, the LED indicator informs you what is happening through different colors and signs.

Tubular latch locking mechanism

International standard jimmy proofing tubular latch.

Automatic locking

Door lock will be locked automatically after opening door a few seconds. (Manual operation is also available)

Missing key invalidation

Once you lose your key, it has no validation as long as you re-register rest of your keys.

Anti-panic exit system

For convenience and in case of emergency, it allows you to open the door by simply turning its handle from inside.

Alarm (Incorrect Fingerprint or RF Card)

Alarm will be on and last for 10 seconds if anyone attempts to open the lock with incorrect Fingerprint or RF Card for 5 times.

Low battery warning signal

A voice reminder of low battery during door access will alert you to replace batteries.
